3 September 2018

Dear Parent/Carer

During their time at Woodbrook Vale School, KS3 students will be working with a wide range of materials in their Art and Design Technology lessons. We try our best to ensure students are able to work with high quality materials including thermoplastics, metals, clay and electronic components. We hope parents will feel able to support us by making a voluntary contribution of £10 towards the cost of materials. Students will be allowed to take home all the products made during their KS3 A&DT lessons.

If your child receives pupil premium funding we will provide all materials and ingredients free of charge.

In Food Technology all students will be expected to provide their own ingredients on a weekly basis and the food they make will be taken home. From time to time experimental work will be undertaken and the school will provide the ingredients for this.

Payment should be made via ParentPay or by making payment through a paypoint store using a barcoded letter. If you need a barcoded letter or require any further assistance with this please contact the Student Office on x130.

Yours faithfully,

Vikki Elliott
Head of Art and Design Technology
