CREATIVE Faculty

Year 8 - Gargoyles

Year 8 students have been designing and sculpting their own imaginative clay gargoyles inspired by historic architecture. Students have carefully modelled expressive facial features and details using a range of clay tools and techniques before bringing their pieces to life with acrylic painting techniques considering tone and texture. The finished gargoyles showcase a fantastic range of creativity, from fierce and fearsome to quirky and characterful, demonstrating both skill and individuality.

Well done Year 8!

CONGRATULATIONS

May Tomlinson recently led her team to success in the Loughborough Students' Union Scout and Guide Club (SCOGUI) competitive night hike.

This overnight hike takes place each year in March, and is a challenging test of navigation, practical and team working skills. This is the fourth time May has participated in the challenge, and the second year running that she has been part of the winning team.

National Sportshall Championships

Having won the Regional Championships in February, Jaden went on to represent the East Midlands in Stoke on Saturday, and came away with 2 individual medals. A Gold in the U13 8lap parlaaf, and Bronze in the standing triple jump.

He was also selected to be team captain, leading by example throughout the competition and supporting his teammates with confidence and maturity.

SCIENCE

CONUNDRUM of the WEEK

Last Weeks Answer

In the human body what is the function of Amylase - It breaks down complex carbohydrates (starch) into simple sugars, and is found in saliva.

What causes magnetism?

SPORTS LEADERS 2026-27

FROM THE PE OFFICE.**

**THE DEADLINE TO RETURN YOUR
APPLICATION FORM IS FRIDAY 15TH
MAY.**

**IF YOU HAVE ANY QUESTIONS,
PLEASE ASK MISS BAKER OR MISS
PHILLIPS.**

CAREERS

APPRENTICESHIP ENGINEERING PROGRAMME

The Apprenticeship Programme at Linde is designed to cultivate top-tier engineers who can meet the growing demand for workshop, field, and site-based roles. As an apprentice, you'll embark on a journey to become a fully proficient Linde Engineer, combining college education with hands-on experience.

An apprenticeship is a work-based learning programme, where you earn while you learn. It builds industry-specific knowledge, skills, and behaviours through on and off the job training to make sure you are competent in your role. An end-point assessment ensures competency. All apprentices must achieve Functional Skills in Math's and English.

Linde have partnered with SMB College to deliver the 3-year Lift Truck and Powered Access Engineering Technician Apprenticeship (Level 3).

UNIVERSITY OF NOTTINGHAM - GETTING INTO GAMING

We are delighted to invite you and your students to attend our Getting into Games: Advice and Insight from Andy Wilson, COO, Sledgehammer Games

- Date: Wednesday 6th May 2026
- Time: 6.30pm (Doors open: 5.45pm) – 8.00pm
- Location: B52 Auditorium, Business School South, Jubilee Campus, University of Nottingham, Wollaton Road, Nottingham, NG8 1BB

As Chief Operating Officer for Sledgehammer Games, University of Nottingham graduate Andy Wilson (Computer Science, 2001) has worked within some of the biggest video game franchises in the history of the medium, including Call of Duty. If you're interested in a career in the industry, here's your chance to get ahead of the game with advice and insight from the man behind the controller!

The event will cover:

- The structure of a typical games team and the publisher/developer relationship
- Core disciplines and roles
- A typical Project Lifecycle
- Advice for aspiring game developers in the current climate, including tools and technologies to be aware of
- Career journeys of the Sledgehammer Development Team
- Current and future trends to consider

To register, please ask your parent or guardian to complete this form as it is mandatory that they accompany you. Register here: <https://forms.office.com/e/iaAWr1EnuE>

Getting into Games:
advice and insight from our industry expert

With Andy Wilson (Computer Science, 2001)

Wednesday 6 May, 5.45pm
Business School South, Jubilee Campus

Woodbrook Vale School

Entry price includes FREE T-Shirt & Refreshments £20 adults / £6 child

CHARITY BIKE RIDE 2026

SUNDAY, 17th MAY
9am START

Join us!

Alpine House Surgery are hosting their Charity Bike Ride for a second year. This time, to raise funds to support two wonderful local hospices, LOROS and Rainbows. Both charities do incredible work giving care and providing support for children, adults and their families during their time of need.

All abilities welcome! Our figure 8 route will cover 54km of the local area. A shorter route of 22km is available by completing the first loop only. We have also introduced a smaller route this year of 11km for families and children aged 10 and over (must be competent cyclists). All children under 16 years old must be accompanied by a parent or carer.

ROUTE MAPS AVAILABLE FROM ALPINE HOUSE
www.alpinehousesurgery.co.uk

Donations (via Just Giving) In addition to the Registration fee, if you are being Sponsored for the event or wish to donate to either or both Charities, please scan the relevant QR code below. Any donations appreciated even if you are NOT taking part in the event.

Woodbrook Vale School

Do you have experience of waiting for mental health support? We Want to Hear From You!

Share your experience of waiting for:

- Mental health support
- Autism or ADHD assessments
- Other neurodivergence assessments
- Waiting can be hard – for young people and families.
- Your voice can help improve what support looks like during that time.

Why are we asking?

This survey is part of the Joined Up Institute project by UK Youth, working with organisations across Leicester, Leicestershire & Rutland. Although we can't shorten waiting lists, we can improve the experience while people wait.

We want to know what helped you:

- ✓ Coping skills or strategies
- ✓ Supportive people
- ✓ Activities, groups or services
- ✓ Helpful resources

(Formal or informal – anything that made the wait easier)

We have two short anonymous surveys: one for young people and one for parents or carers. They take just a few minutes to complete.

Please complete them by midnight on 9 April 2026.

Please also share the survey with others who may have experience of waiting for support – more responses mean more ideas to improve things.

[Click here for Parent and carers form](#)

IS THE GOVERNMENT BANNING CHIPS?

You may have seen various stories in the media this week about school dinners. The government is looking to update the current School Food Standards as they have not been updated in the last 10 years.

There is a chance for parents and carers to give their feedback to the government on the proposals.

Follow the link below where you will find the proposal documents at the bottom of the page and the link to complete the online survey.

The survey is available until June 2026.

Homework Club

A safe, supportive environment

Looking for a quiet and supportive space to get your homework done? Come along to the Homework Club in the school library every Tuesday, Wednesday, and Thursday from 3:00 to 4:00 PM. Open to students from all year groups, the Homework Club is the perfect place to focus on your assignments, study, or catch up on work. There's no obligation to stay for the entire hour—drop in for as long as you need! Whether you're looking for a peaceful environment to concentrate or need some guidance with your tasks, the Homework Club is here

A PARENTS GUIDE TO

SPARX MATHS

WHAT IS SPARX MATHS?

Sparx Maths Homework is an online learning platform that creates personalised maths homework for students aged 11-16.

We believe that practice makes perfect, so each week, your child's teacher selects the topics that have been taught in class and we build a personalised set of questions to match your child's current level of understanding.

Our aim is for all children to strive for 100% completion of their homework.

By consistently using Sparx Maths, your child can build a solid foundation in maths and achieve their full potential.

WHY IS MY CHILD ENCOURAGED TO DO WRITTEN WORK AS WELL AS ONLINE?

We believe that written work is essential in supporting your child's understanding of maths and to help them create positive habits.

Sparx provides bookwork checks to encourage your child to do written work when they're answering questions in Sparx Maths. These checks remind students to write down the question and their working, which is helpful if they get stuck as teachers can see where they are going wrong. We advise your child to do this work either in the back of their exercise book or at your discretion, a notebook dedicated for their maths work.

HOW YOUR CHILD WILL LOGIN TO SPARX MATHS?

- Search for 'Sparx Maths student login' in google search engine
- Click on Student Login
- Type Woodbrook Vale School into the select your school box
- Then click on Woodbrook Vale School and press continue
- Now select Log in to Sparx using Google
- The student's username and password are the same as they use to login into the computers in school

WHAT IF MY CHILD IS REPEATEDLY GETTING AN ANSWER WRONG AND CAN'T COMPLETE THEIR HOMEWORK?

Sometimes when your child is completing their homework they might keep getting an answer wrong which prevents their homework from being complete. To help with this, we encourage your child to watch the helpful support video for that question and if they are still stuck, then they can use the new question swap feature which will give them an easier question to attempt. They can use this feature three times in each homework. If your child needs further help after this then we would encourage them to ask their teacher for support before the homework deadline.

HOW CAN I HELP MY CHILD WITH THEIR SPARX MATHS HOMEWORK?

We believe your child can answer all of the questions correctly in their homework, but we know there may be times when they struggle, so how can you support your child with their homework?

Our top three tips for you and your child when using Sparx Maths...

- Encourage them to tackle it on their own
- Nudge them to use the support videos
- Suggest that they start early to give plenty of time for help if they need it.

WHAT IS XP?

- Sparx XP or 'Experience Points' is an effort based points system that we as a school will use to support and inform a reward scheme.
- Pupils can go to the Independent Learning tab and find topics and activities at any time. This will also be so valuable to aid any revision for examinations and assessments too.
- Students earn XP when they complete a task or win a reward game.
- Tasks from different homework types earn different numbers of points, for example students can earn more XP if they complete XP Boost and Target homework tasks compared with Compulsory ones.
- Students go up a Sparx level for every 10,000 XP they collect.
- They can be encouraged to increase their number of XP by completing all of their XP Boost and Target homework.
- Certificates are awarded for levels attained.
- There will be prizes awarded termly for the pupils with most XP points and most improved XP points.

IN CONCLUSION

Teachers select topics that have been taught in class. Sparx Maths builds a personalised set of questions. Students complete their homework online. Teachers monitor homework so they can motivate and support students. Parents can monitor homework using Go4Schools and receive an email from Sparx before homework is due. Teachers receive powerful insights each week with the pupils attainment.

If you require any more information then please go to <https://sparxmaths.com/parents/> or contact your child's maths teacher.
